“Bibliography . . . should aim not only at a faithful recording of literature, but also at its presentation in a manner most advantageous to everyone concerned.”

“A Survey of Periodical Bibliography” by
J. Christian Bay.

“La Bibliografía . . . debería procurar no sólo una anotación de la literatura, sino también su presentación en la forma más ventajosa posible para todos los interesados.”

“Estudio de la Bibliografía Periódica” por
J. Christian Bay.

Preface

The general purpose of the Periodicals Directory is to present a selected labor-saving guide to the current periodical material published in the countries of North, Central, and South America, the West Indies, and in the Hawaiian Islands, to be used not only for reference but also as a guide for purchase. The compilation has been made in the belief that no amount of intelligence or knowledge of how to avail oneself of the contents of periodicals will quite take the place of a subject listing combined with a proper index.

No attempt at evaluation has been made and the list does not aim to be exhaustive. Annuals, monographs and series publications have not been considered. The periodicals are grouped according to a broad classification and the general alphabetical plan remains the same as in the three earlier editions. A few new subjects have been added and many more analyzations of the entries have been made. The latter are printed in italics. Analyzations are omitted for those periodicals which cover a general field and for those which contain several specific parts of a subject. Both subject headings and analyzations are given in English and in Spanish. It is to be regretted that Portuguese could not be given, but it is hoped that the general use of the Directory will be extended and its value increased.

As a periodical may serve one or more purposes or differ in the treatment of its contents from others on the same subject, the same periodical may be found listed under more than one subject. Thus the total number of entries is approximately 7000, while the number of single titles is approximately 6000.

Occasionally titles which have limited or ephemeral value are listed, their inclusion being justified by their specialized interest. A number of house organs which present timely technical processes, often well illustrated, have been added and an extended group of labor union publications will be found. These specialized publications cannot be disregarded in view of the rapid changes in scientific, social and economic conditions today.

The method of compilation has been to make a careful study of each periodical, recording its title and subtitle, supplements, date of origin, frequency, price, size, publisher, place of publication and annual index. An expanded feature in this edition is the recording of the cumulative indexes. Such items as are characteristic of each periodical are given and also information concerning indexing and abstracting services. A complete list of both services will be found on page xiii.

The listing of the indexing and abstracting services proved a very arduous task and no claim is made for completeness in recording all periodicals indexed or abstracted. Many services do not print a list of such periodicals, and a study of the current volume of their journal must be made, or in some cases the list printed is four or five years old. Furthermore, the involved method of entry in these printed lists emphasizes the deplorable lack of an alphabetical listing and of cross references.

The source for the date of origin is from the *Union List of Serials*, *The Tentative Guide to the Latin American Periodicals and Bibliographies current in the Library of Congress*, and from the Library of Congress catalogue cards. The price, whenever possible, is given in the currency of the country wherein the periodical is published. A complete list of the money symbols will be found on page xiv.

Following each subject is a list of bibliographies relating to its periodical literature. The general purpose has been to group together for each subject as much assistance as is available for the use of the *current* periodicals listed in those subjects; i.e. (1) Important lists that would augment the present listing; (2) Indexes that would be a key to the material in the present listing; (3) Sources for keeping the present listing up to date.

A comprehensive index is provided including a key to subjects which by means of cross references leads from specific headings to the larger divisions under which the material is to be found. The titles, subjects and cross references are thrown into a single alphabet. The subjects and cross references are given both in English and Spanish.

Mr. Albert Avigdor, editor of various publications in Spanish, has made the final technical and scientific translations into Spanish. Due to the difficulties of line spacing capitalized letters appear without accent marks. The preliminary entries of the Spanish and Portuguese publications were made by Mrs. Virginia Rogers, Head of the Circulation Department of Pratt Institute Library.

The editor is greatly indebted to the administration of the New York Public Library for permission to use material and records from the various Divisions; to the American Museum of Natural History; Columbia University; Horticultural Society of New York; Insurance Society of New York; New York Academy of Medicine; New York Bar Association; New York Theological Seminary, and Teachers College of Columbia University, for the opportunity to consult freely their collections.

An expression of appreciation is made to Miss Eugenia Patterson, Reference Assistant, Periodicals Division, New York Public Library, for her very generous and kind assistance; to Miss Janet Doe, Assistant Librarian, New York Academy of Medicine, for helpful advice and revision of the publications under Medical Sciences; and to Daniel C. Haskell, Bibliographer, New York Public Library, who allowed checking against his original records of his book "A check list of cumulative indexes to individual periodicals in the New York Public Library," now in press. Also acknowledgment is made to the Staff of the Periodicals Division of the New York Public Library for their cooperation.

New York, November, 1942

Prólogo

El objeto general del Directorio de Publicaciones Periódicas es ofrecer en una guía seleccionada las materias contenidas en las publicaciones que aparecen periódicamente, en la actualidad, en América del Norte, Centro y Sur, en las Antillas e islas Hawai. No tan sólo servirá para consulta sino también para saber dónde se pueden comprar estas publicaciones. Se ha procurado esta recopilación en la seguridad de que nada podrá reemplazar un catálogo de materias, combinado con un índice adecuado, no importa el grado de inteligencia o de conocimientos que se tengan para aprovechar el contenido de las publicaciones periódicas.

No hemos tratado de hacer valorizaciones, ni ha sido nuestro propósito formar una lista completa. Tampoco se han tenido en cuenta los anuarios, monografías y publicaciones que forman serie. Las publicaciones están anotadas de acuerdo con una amplia clasificación, y el plan alfabético permanece igual, como en las tres anteriores ediciones. Se han añadido algunos asuntos nuevos y se ha hecho un mayor número de clasificaciones analíticas de las materias anotadas. Para destacarlas mejor, estas clasificaciones van en bastardilla. Se han omitido las clasificaciones analíticas de las publicaciones que abarcan un campo general, así como de aquellas que continenen distintas partes específicas del mismo asunto. Ambos, los asuntos y las clasificaciones se expresan en inglés y español, siendo de lamentar que no hayamos podido hacerlo en portugués, pero esperamos que a pesar de ello, el uso del Directorio será más amplio y su utilidad será mayor.

Obsérvese que como hay publicaciones que pueden perseguir más de un fin, o diferir de otras de la misma índole en el modo de tratar los asuntos a que se dedican, se ha catalogado, a veces, la misma publicación con más de un asunto; por ello, si el número total de los títulos catalogados se aproxima a 7.000, el de los títulos individuales es de 6.000 únicamente.

A veces, se incluyen títulos de valor limitado o transitorio, justificándose su inclusión por el hecho de tener un interés especializado. Se ha añadido un número de órganos de publicidad de firmas comerciales e industriales, porque ofrecen procesos técnicos de actualidad, a menudo bien ilustrados. También se encontrará en esta Guía, un buen número de publicaciones obreras, que están inspiradas por sus organismos. No puede prescindirse de este género de revista, dada la marcha del mundo y los cambios rápidos que se verifican, hoy en día, en las actividades sociales, científicas y económicas.

El método de recopilación está basado en un concienzudo estudio de cada publicación, anotando su título y subtítulo; suplementos; fecha de fundación; frecuencia; además del precio, tamaño, empresa editorial, lugar donde se publica e índice anual. Un rasgo distintivo adicional de esta edición es el empleo de índices acumulativos. Se mencionan también los detalles característicos de cada publicación y se proporcionan informes acerca de los servicios de índices y resúmenes. Una lista completa de estos servicios aparece en la página xiii.

Resultó muy difícil la labor de registrar los servicios de índices y resúmenes, y no pretendemos haber logrado datos completos en cuanto a la inscripción de todas las publicaciones abarcadas por estos servicios, debido a que muchos no imprimen listas con esa información, y es preciso por tanto, estudiar el volumen corriente para cerciorarse a este respecto. En algunos casos, la lista impresa, cuando la hay, está atrasada de cuatro a cinco años. Además, el método compli-

cado que se emplea para registrar estas listas, hace resaltar la falta lamentable de un arreglo alfabético de referencias a los asuntos conexos.

Las fuentes informativas para las fechas de fundación las constituyeron: la "Union List of Serials," "The Tentative Guide to the Latin American Periodicals and Bibliographies current in the Library of Congress," así como las tarjetas del Catálogo de Librería del Congreso; y en lo que ha sido posible, el precio de cada ejemplar se ha expresado en la moneda nacional del país donde aparece la publicación. En la página xiv se verá una lista completa de los símbolos monetarios.

Después de cada clasificación hay una lista de bibliografías relacionadas con la literatura periódica respectiva. El propósito general ha sido reunir con cada asunto toda la información disponible que permita ayudar al uso de las publicaciones *corrientes* anotadas bajo estas materias, a saber: (1) Listas importantes que aumentarían el presente registro, (2) Índices que ofrecen una clave para las materias de este registro, (3) Fuente para mantener al día el presente registro.

En la Guía se proporciona un índice completo, incluyendo una clave para los asuntos. Y, por medio de referencias de una parte de ella a otra, se puede ir de los asuntos específicos a las divisiones más amplias bajo las cuales se encontrará el material. Todos los títulos, asuntos y referencias están incluidos en un sólo índice alfabético. Los temas y las referencias se expresan en inglés y en español.

El señor Alberto Avigdor, redactor de varias publicaciones en español, ha sido el encargado de verter a este idioma, los títulos científicos y técnicos finales. Debido a las dificultades de interlinear los renglones, las mayúsculas aparecen sin acentos. Las anotaciones preliminares de las publicaciones en español y portugués fueron hechas por la señora Virginia Rogers, Jefe del Departamento de Circulación de la Biblioteca del Instituto Pratt.

Reconocemos con agradecimiento la ayuda dada por la Biblioteca Pública de la ciudad de Nueva York que tuvo a bien concedernos permiso para usar los materiales y los apuntes de varias Divisiones de dicha Biblioteca. Y este agradecimiento lo hacemos extensivo al Museo Americano de Historia Natural; a la Universidad Columbia, a la Sociedad de Horticultura de Nueva York; Insurance Society of New York; New York Academy of Medicine; New York Bar Association; New York Theological Seminary, y al Colegio Pedagógico de la Universidad Columbia. Todas estas organizaciones nos dieron facilidades para consultar sus colecciones.

Y en este mismo orden de agradecimiento, queremos expresarlo muy rendido a la señorita Eugenia Patterson, Ayudante del Departamento de la División de Publicaciones de la Biblioteca Pública de la Ciudad de Nueva York por su eficaz ayuda; a la señorita Janet Doe, Bibliotecaria-Ayudante de la Academia de Medicina de Nueva York, por sus valiosos consejos y por haber revisado las publicaciones clasificadas bajo la rúbrica de Ciencias Médicas; y al señor Daniel C. Haskell, Bibliógrafo de la Biblioteca Pública de la Ciudad de Nueva York que nos permitió cotejar esta obra con los apuntes originales de su libro: "A check list of cumulative indexes to individual periodicals in the New York Public Library" que está ahora en prensa. También agradecemos la cooperación del Personal de la División de Publicaciones de la Biblioteca Pública de Nueva York.
